

GIDEON KOMLA AGBAVOR

Full-Stack Software Developer · Cybersecurity Professional · Technical Educator

[linkedin.com/in/gideon-k-agbavor](https://www.linkedin.com/in/gideon-k-agbavor) · github.com/gideonagbavor8 · Ho, Volta Region, Ghana · Available for roles in Accra & remote

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 1+ year of professional experience building and deploying AI-powered web applications using React, Next.js, and Node.js. Google-certified Cybersecurity Professional with hands-on expertise in threat modeling, NIST frameworks, and secure database architecture. Unique background combining formal STEM education, security certification, and active software engineering experience — enabling effective technical contribution and clear communication with both technical and non-technical stakeholders. Actively seeking junior cybersecurity analyst, software developer, or EdTech roles in Ghana and remotely.

PROFESSIONAL EXPERIENCE

Content Advisory Board Member | [LogRocket](#) | Remote *Aug 2025 – Present*

- Audit technical web development articles reaching a global audience of 1M+ software engineers, ensuring accuracy, UI/UX best-practice alignment, and editorial quality.
- Deliver strategic editorial recommendations that shape content strategy for a leading developer-focused publication.

AI & Technology Intern | [Upper Echelon](#) | Remote *Oct 2024 – Feb 2026*

- Engineered and deployed 3+ AI-powered full-stack prototypes using React and Next.js, optimizing component rendering and API data fetching to improve frontend load times.
- Containerized application environments using Docker, eliminating environment inconsistency issues and reducing deployment setup time by an estimated 40%.
- Designed relational database schemas with Prisma ORM and PostgreSQL for an artisan marketplace platform, improving query efficiency through normalized data modeling.
- Executed automated testing cycles and maintained technical documentation via Squash TM, contributing to measurable reduction in post-deployment bugs.

Mathematics & ICT Facilitator | [Ghana Education Service](#) | Ho, Ghana *2024 – 2025*

- Designed and led digital literacy programs for 100+ students, integrating modern ICT tools into the mathematics curriculum and improving measurable classroom engagement.
- Managed and maintained a computer laboratory supporting 100+ workstations, achieving 99% uptime through proactive infrastructure monitoring and maintenance.

EDUCATION

B.A.T. in Software Development *Expected November 2026*

Brigham Young University – Idaho (Online) · *Focus: Database Systems · Advanced Web Programming · Software Engineering · AI Integration*

B.Ed. in Mathematics & ICT Education *2021 – 2024*

Peki College of Education, Ghana · *Specialisation in STEM pedagogy and digital literacy curriculum design*

CERTIFICATIONS

- **Google Cybersecurity Professional Certificate** — Security auditing, network defence, and incident response
- **ALX Back-End Web Development** — 16-week intensive — Python, Django, SQL (Score: 100.03%)
- **BYU-Idaho Web Development Certificates** — Advanced Frontend & Backend Programming
- **ALX AI Starter Kit** — Applied AI for software development productivity

- **Jobberman Soft Skills & Career Essentials** — Professional foundations for corporate leadership

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, Python, React, Next.js, Node.js, Django

Data & Infrastructure: PostgreSQL, Prisma ORM, Supabase, Docker, RESTful APIs, Git, GitHub, Vercel

Cybersecurity: NIST Cybersecurity Framework, Threat Modeling, Incident Response, Information Systems Governance, Security Auditing, Network Defence

Testing & Tools: Squash TM, Linux CLI, VS Code, Figma (basic)

KEY PROJECTS

Sentinel Flow | *TypeScript · Threat Modeling · Cybersecurity Ops*

Security-focused application demonstrating threat modeling and cybersecurity operations principles. Designed to showcase practical application of NIST framework concepts.

github.com/gideonagbavor8/sentinel-flow

Handcrafted Haven | *Next.js · TypeScript · Prisma · PostgreSQL*

Full-stack artisan e-commerce marketplace with complex multi-user state management, secure payment gateway integration, and RESTful API design.

github.com/gideonagbavor8/handcrafted-haven

Taskflow App v2 | *Supabase · Prisma · Docker · Role-Based Access Control*

Enterprise-grade task management platform focused on scalable database architecture, designed for multi-team use with role-based access control.

github.com/gideonagbavor8/taskflow-app-v2
